"Committed to Excellence in Dentistry"

Having a Confident Smile

You don't need snow for a white Christmas. With holidays just around the corner a great gift to someone would be giving them a more confident smile. Whether it's through cosmetic dentistry or just simply whitening someone's smile... we are here to help. So many people hide their smile because they are not happy with the appearance of their teeth. A smile creates an immediate, subconscious, visual impact on people. Statistics reveal that we place a high value on our smiles (According to the American Academy of Cosmetic Dentistry survey). Today's dentists are artists, as well as doctors. Cosmetic dentistry seeks to create a more aesthetically pleasing healthy smile. If you are not satisfied with your smile and want to transform it from dull to dazzling, ask us about cosmetic dentistry. We can't wait to hear from you!

Benefits of a White Smile...

- * **Improved Self Esteem:** *Yellow or discolored teeth can make you feel uncomfortable. A white smile makes you feel better about yourself.*
- * **Positive First Impressions:** *A white smile makes you appear friendlier and put together. 40% of people notice a person's smile before any other physical attribute.*
- * **Improved Mood:** *Studies have shown that smiling reduces stress. Smiling releases endorphins which are neurotransmitters that make you feel happy.*
- * **A Youthful Appearance:** *Discolored teeth are a sign of aging. A white smile makes you look younger ☺.*

Michael S. Kanter, D.M.D.

I hope your best gift this season is to wake up each day as I do, grateful. Grateful for the simplest things, like waking up, that's always tops on my list. Soft Sheets, sound home, tropical beauty, getting the paper on a winter day barefoot, shirtless, wearing shorts, my family, my friends, my staff, orange juice, food, it's all a start to a good day, a good life. Because to start my day anxious about what I don't have, how my future may be difficult because I am in need, to let my head immediately spin into a funk about what might be or what I can't do or what I should have done or what has been done to me or how unfair life has treated me is a sure recipe for a day that seems like a slow trudge through a muddy bough on a cold murky day in an abandoned industrial site in Newark (I hope I have not upset any fans of murky Newark industrial site hiking). I have been blessed with a grateful soul happy to be doing what I am doing here and now in the same shorts I had on this morning. God Bless America!

~Have a safe and Happy New Year~
